

Care for all coats – the latest MOSER coat care assortment!

At this year's Interzoo the company Wahl presents a complete grooming and coat-care package for dogs and cats to the specialized trade under the brand MOSER Animalline. In addition to animal hair clippers and trimmers for sophisticated home use, the MOSER product range has been expanded to include high-quality care products as well.

The premium slicker brush with movable head facilitates the coat care and offers maximum comfort with the flexible gel handle. Also, the paw pedicure is no longer a problem with the cordless nail grinder, which offers excellent visibility when cutting the claws thanks to the integrated spotlight. A nourishing paw spray and an easy-to-use no-rinse shampoo to prepare the coat for clipping complete the product range. An additional special highlight will be the presentation of a new, cordless detail trimmer.

All MOSER products are tested by dog groomers and recommended for daily grooming at home.
